Summary

Completed a Data Science and Machine Learning internship with hands-on experience in data preprocessing, statistical analysis, regression modeling, model evaluation, and Streamlit deployment. Developed and worked on projects including Crop Recommendation System, and Placement Prediction System, gaining practical knowledge of Python, Machine Learning, data analysis, and model development. Strengthened problem-solving skills by applying machine learning techniques to real-world datasets and building practical predictive solutions.

Experience

SupraTech AI Innovations and Software Solutions — *Data Science Intern* **Jan 2026 – Feb 2026**
On-Site

- Completed a Data Science and Machine Learning internship with hands-on experience in Python, Scikit-learn, data preprocessing, feature engineering, model training, and evaluation.
- Developed a **Crop Recommendation System** using machine learning techniques to recommend suitable crops based on agricultural parameters.
- Developed a **Placement Prediction System** to predict student placement outcomes using relevant academic and skill-based features.

Skills

Languages: Java, C++

Web Technologies: HTML, CSS, JavaScript, MySQL

Data Science & Machine Learning: Machine Learning, Statistics, SQL, Data Preprocessing, Feature Engineering, Exploratory Data Analysis (EDA), Predictive Modeling, Model Evaluation, Pandas, NumPy, Scikit-learn, Matplotlib

Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP), System Design Fundamentals, DBMS, Computer Networks, Problem Solving

Tools: GitHub, VS Code, Jupyter Notebook, Streamlit

Projects

Currency Converter **2025**

- Developed a responsive currency conversion web application using HTML, CSS, and JavaScript with real-time exchange rate data.

WeatherNow – Weather Website **2026**

- Built a responsive weather application using HTML, CSS, and JavaScript to display real-time weather data, forecasts, air quality, UV index, and sunrise/sunset information.

Crop Recommendation System **2026**

- Developed an ML-based system to recommend suitable crops based on agricultural parameters using Python and Scikit-learn.

Placement Prediction System **2026**

- Developed a machine learning model to predict student placement outcomes using academic and skill-based features.

Education

Pune Vidyarthi Griha's College of Engineering & S.S. Dhamankar Institute, Nashik **2023 – 2027**
B.E. Computer Engineering

Sem 6 SGPA: 7.95

Late Prayagbai Patil College, Latur **2023**
HSC: 47.83

Saraswati Madhyamik & Ucchamadhyamik Vidyalaya, Khadgaon, Latur **2021**
SSC: 87.40

Certifications

Java in Depth — Udemy

Leadership & Extracurricular Activities

- Volunteer** — College Tech Fest
- Active participant in technical learning and personal software development projects.
